BEST OF STEEL 

Are you a visionary Product Portfolio Manager with a passion for driving growth in the construction industry? JELD-WEN invites you to join our dynamic team as a European Product Manager for Steel Doors!

Product Manager – European steel door portfolio M|W|D

YOUR ROLE

In this European position you will play a crucial role in shaping and executing our product line strategy, driving growth in a dynamic market. With a turnover of €40 million, you'll collaborate closely with internal teams and external stakeholders to manage the product portfolio lifecycle, ensuring both revenue and profitability goals are achieved. This position is hybrid and can be placed in Austria, Czech Republic as well as in Germany – preferably close to our production sites, as travel activities are required (~30%).

WHAT YOUR IMPACT WILL BE

- Collaborate with the Product Line Manager to develop and execute product line strategy and annual budgets
- Market, competitor and customer analysis - Monitor and report on competitor and market activities to provide actionable insights
- Identify new product opportunities, create value propositions, and champion projects through the WAVE & tollgate process
- Define pricing and service offerings for new products to best meet our customers needs
- Manage products through all stages of the lifecycles ensuring activities to growth, extend and eventually manage out of portfolio are completed
- Creation of 5 year roadmaps aligned with both European and country strategy
- To ensure adherence with all compliance standards and operate with integrity at all times.
- Optimize contribution margins throughout the product lifecycle
- Creation of a Go To Market Plan for all new product introductions in conjunction with Marketing and Sales and ensure all aspects are in place (internal training, product system set up and external marketing activities) for a successful product launch
- Understand and navigate legal and regulatory requirements and ensure range is compliant to current and future regulations including environmental accreditations e.g. EPD's, Cradle to Cradle
- Provide timely and relevant product reporting and actionable insight to inform business decisions
- Support & ensure adherence to business processes such as Tollgate & IBP

WHAT YOU'LL NEED TO SUCCEED

- University degree in business or a related technical field
- Proven experience in a similar role in Product Management, ideally in construction or building materials sector preferably in a multinational, matrix organization
- Proficiency in conducting market research to identify trends, customer needs, and competitive landscapes
- Project management expertise as well as ability to collaborate with cross-functional teams is key to be successful in this position
- Familiarity with certified or regulated products is highly desirable
- Keen understanding of structured workflows and processes
- Proficient command of English, both written and spoken language, good German skills, Czech language is a plus
